

FOR REGISTERED HEALTHCARE PROFESSIONALS ONLY

HumaPen Savvio® NEW ORDERING PROCESS

The HumaPen Savvio® (insulin delivery medical device) ordering process is changing. From **October 1st 2025**, hospitals will no longer need to order HumaPen Savvio® units through Eli Lilly customer service.

Instead, Lilly is introducing an allocation program. Hospitals will be able to receive **10x or 20x free-of-charge** HumaPen Savvio® units every 3 months for their patients.*

**Click here to register for the
HumaPen Savvio® allocation program**

*Free-of-charge allocation quantities are limited and may vary in response to unexpected market demand. Patients may choose to purchase a HumaPen Savvio® unit from their local pharmacy.

If your patients require additional HumaPen Savvio® units, please advise them to purchase these through their local pharmacy.
