

## **New Zealand Society for the Study of Diabetes**

### **Summer Studentship – 2018**

NZSSD is offering funding of \$5,000, including GST, for two studentships for the coming summer, 2018-19. Projects relevant to issues concerning diabetes and where the host institution offers appropriate supervision are eligible for consideration.

Applications describing the project (no more than two A4 sides), a brief CV of the student planning to undertake the work, and a supporting letter from the supervisor should be forwarded by e-mail to the secretariat: [info@nzssd.org.nz](mailto:info@nzssd.org.nz) by 10<sup>th</sup> August. The supervisor must be a current member of NZSSD.

A decision about the project to be funded will be made by 31 August. We anticipate no more than one student will come from each centre. It is an expectation that the successful student will submit an abstract for presentation at the NZSSD Annual Scientific Meeting, which is held in May each year. Students may apply for financial support to attend the meeting.
